

DRIVE IMPROVED PERFORMANCE WITH A 360° LEARNING EXPERIENCE

MLevel Analytics blends learner performance and data visualization through Microsoft Power BI product. With this integration, your business gains real-time access and knowledge of how employees perform, aiding in achieving content mastery.

PERFORMANCE

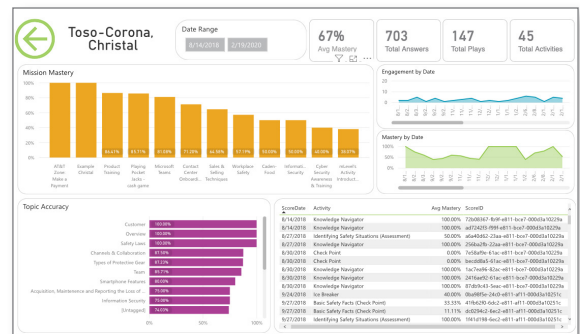

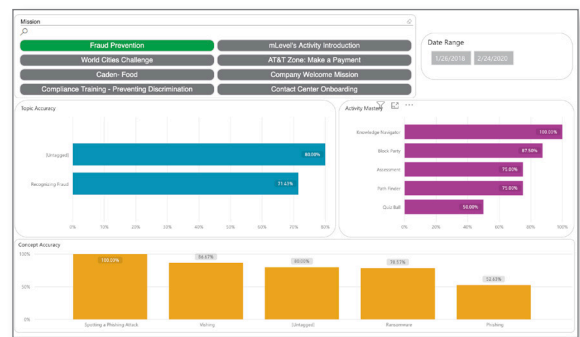

Easily see knowledge gaps at an overview, group, or individual level.

ACCURACY

Use data to formulate reinforcement around areas of need and to create personalized coachable moments.

LEADING INDICATORS

Both the learner and the company benefit from a deeper understanding of knowledge gaps and strengths.

ACTIONABLE DATA. COACHABLE MOMENTS.

See how data is both easy to understand and effective. MLevel Analytics provides insight into the learner performance and gives an overall framework of the user experience.

MLevel
Mission. Measurement. Mastery.
